- Recommended for people age 50+
- Covered for FREE to those under Prisma Health prescription insurance
- No appointment needed

Why get the Shingrix vaccine?

- Shingrix provides strong protection from shingles and long-term nerve pain.
- Get Shingrix even if you already had shingles, because you can get the disease more than once.
- Patients who have previously received Zostavax should be revaccinated with Shingrix.
- Your risk of shingles and complications increases as you age.
- You need 2 doses of Shingrix. Get the second dose 2–6 months after you get the first dose.
