

Announcing two Prisma Health ITS leadership appointments

From Stephanie Case, director, enterprise systems

Please join me in congratulating two Information Technology Services team members for moving into new leadership roles. Karen Spangler has been named manager, Microsoft systems and Deitra Troy has been named manager, business systems.

Karen has been serving as IT clinical applications manager for the past ten years. In her new role, Karen will lead the day to day operations of the Microsoft systems team, which includes overseeing the launch of a new Microsoft platform.

Deitra has been serving as manager, business systems in the Upstate for the past seven years. Her new role will expand to cover all of Prisma Health. In her new role, Deitra will lead the day to day operations of the business systems team, including oversight of large scale projects.
