

Datix upgrade coming November 4; training is available

As systems and processes are standardized across Prisma Health, the Midlands facilities have joined the Upstate in using DatixWeb to manage Patient Safety and Patient Experience records. Some alignments have been made to the Reporter and Manager forms as part of this transition.

In order to prepare team members and leaders for the changes taking place on Nov. 4, please join a Skype-based training session. Available sessions are listed below. For additional information, contact Risk Management at Risk.Management@PrismaHealth.org.

To join any session listed below, click the link:
