

@ghs.org and @palmettohealth.org email addresses will no longer work beginning Dec. 2

Beginning Monday, Dec. 2, Information Technology Services will begin migrating to one Prisma Health Microsoft platform. Here's a few reminders about this change:

- Your old @ghs.org and @palmettohealth.org email addresses will no longer work. This includes Palmetto Health–USC Medical Group team members with @palmettohealth.org addresses.
- This will be a phased rollout and is expected to wrap up by end of January 2020.

Benefits of one Microsoft platform:

- Easily view and share Outlook calendars/schedules across the organization.
- Collaborate and share using [Microsoft Teams](#) and [SharePoint](#).
- Shared storage with [OneDrive](#).

Be on the lookout for additional information and learning opportunities regarding more changes related to our Microsoft transition.
