

Little Free Library – read on!

A [Little Free Library](#) is coming soon to a campus near you! Community Relations is excited to announce that a Little Free Library should be installed at each of the eight Prisma Health–Upstate medical campuses by summer’s end.

A Little Free Library is a “take a book, return a book” program for everyone – children to adults. Patients, guests and team members are invited to take a book and bring a book to share. With over 80,000 registered book-sharing boxes in 91 countries, we are delighted to bring this program to our campuses.

Volunteer Services team members will oversee the upkeep of each Little Free Library.

Through these libraries, Prisma Health hopes to encourage literacy as a part of overall health, increase access to books for our community, and foster lifelong readers of all ages and backgrounds.
