

**Work safe. Be safe. Know your PPE.**

## September Safety Bulletin

September is PPE Awareness Month. This is the perfect time to review your team's Personal Protective Equipment (PPE) requirements and update your department's specific hazard processes and Safety Data Sheet binder.

### Manager responsibilities

- Complete a department-specific hazard assessment.
- Identify and provide required PPE for your teams.
- Train teams on use and care of PPE.
- Review and complete team member PPE Training Certificate.
- Periodically audit PPE quality and use.

### Team member responsibilities

- Understand your department's chemical hazards.
- Know where to locate Safety Data Sheets.
- Wear your PPE correctly.
- Properly clean and maintain your PPE.
- Tell your manager if your PPE needs repair or replacing.
