

Amputee Clinic

The GHS Amputee Clinic provides comprehensive follow-up and care for people with amputations. Our interdisciplinary team is led by a board-certified doctor in Physical Medicine and Rehabilitation. An integrated plan of care will be developed to address mobility, self-care, prosthetic intervention, medical management and other essential needs. Additionally, we collaborate with other specialists on your care team, which may include vascular surgeons, orthopaedists, internists, family medicine physicians, as well as clinicians such as prosthetists, physical therapists and occupational therapists.

The Amputee Clinic is located at:

Upstate Medical Rehabilitation

Pain Management & Physiatry

111 Doctors Drive, Greenville, SC 29605

To make an appointment or request more information, please call **(864) 797-7032**.
