

Department of Radiology

Services and Providers

Services

Bone Densitometry

- Full body
- Pediatric dxa

Breast Imaging

- Screening mammography

Breast Center

- Diagnostic
- Mammography
- Breast ultrasound
- Cyst aspirations
- Core biopsies
- Sentinel NODE-biopsies

Computed Tomography (CT)

- Total body imaging with spiral technology
- High-resolution thoracic imaging
- Coronary artery calcium scoring
- CT angiography
- Colonography
- CT low-dose lung screening

General Radiology

- Fluoroscopy
- Routine X-ray
- GI studies
- Hysterosalpingography
- Modified video
- Esophagram
- Scoliosis

Magnetic Resonance Imaging (MRI)

- Total body imaging, including joints, extremities, abdomen and MRCP
- Magnetic resonance angiogram (MRA), including renals and MRCP
- Total body MRA, including thoracic, abdomen, renals and lower extremity runoff

Musculoskeletal

- Arthrography

Neuroradiology

- Myelography (cervical, thoracic and lumbar)
- Facet blocks
- Epidural steroid injections

Nuclear Medicine

- General nuclear medicine
- Cardiac SPECT imaging
- Thyroid cancer treatment
- Thyroid imaging with treatment capabilities
- Gallbladder imaging with ejection fraction
- HIDA scan
- Cardiac stress testing

Ultrasound

- Carotid/venous ultrasound
- Duplex studies
- GYN-transvaginal
- Abdominal/small parts
- Neck/thyroid

Interventional Radiology

Dialysis

- AV fistula with PTA
- Catheter placement

Gastroenterology

- Transjugular intrahepatic portosystemic shunt (TIPS)
- TIPS revision
- Percutaneous biliary catheter placement
- Percutaneous gastrostomy tube placements
- Percutaneous transhepatic cholangiography (PTC)
- Liver cyst ablation/alcohol ablation

Gynecology

- Uterine artery embolization
- Ovarian vein embolization
- Ovarian venography
- Pelvic congestion embolization

Oncology

- Radioembolization for HCC
- Chemoembolization/TACE
- Biopsy
- Radio frequency ablation
- Long-term venous access port placement/tunneled catheters
- CT-guided microwave ablation (lung, liver and renal)

Urology

- Male varicocele/gonadal vein embolization
- Percutaneous nephrostomy tube
- Ureteral stent placement/angiography
- CT-guided cryoablation (renal)
- Renal cyst ablation/alcohol ablation

Vascular

- Diagnostic angiography via CTA and MRA

Venous

- IVC filter placement
- Pulmonary angiography
- Long-term venous access port placement/tunneled catheters
- Venous sampling (renal, adrenal and ovarian)
- Portal vein embolization

Miscellaneous

- Percutaneous abscess drainage/tube placement
- Percutaneous fluid collection drainage/tube placement
- Pleural and peritoneal drainage catheter placement for malignant pleural effusion or ascites
- Bland embolization

Neurological Procedures

Oncology

- Intrathecal chemotherapy
- Thermal ablation of painful vertebral metastases (STAR)

Spine

- Sacroiliac joint injections
- Perifacetal synovial cyst treatment
- Pain management (facet injection, lumbar selective nerve block, transforaminal epidural steroid injections)
- Myelography
- Sacroplasty/sacral augmentation
- Vertebroplasty/vertebral augmentation
- Spine biopsy

Miscellaneous

- Sphenocath for headaches or trigeminal neuralgia
